To strengthen our team in Graz, Austria, we are searching for a

**Software Testing/Quality Assurance Engineer (m/f)**

TimeTac is a continually growing and innovative software company with a focus on developing and providing web-based and mobile time tracking solutions. The products of TimeTac are among some of the leading cloud applications in the categories of time tracking and absence planning solutions in the German speaking markets.

**Your Tasks:**
- Responsible for software tests of the TimeTac product line
- Conception and further development of the automated test environment
- Test conception and test case creation, as well as supporting manual test activities
- Tasks in the area of Quality Assurance and collaboration with the development team

**Your Profile:**
- Practical experience in test automation
- Knowledge of test frameworks such as Codeception, Selenium and JMeter considered beneficial
- Programming knowledge in JavaScript and PHP
- Knowledge in the area of Quality Assurance
- Very good spoken and written ability in German and English
- Analytical thinking, accuracy and self-responsibility

**Our Offer:**
- Exciting tasks as part of a young and motivated team
- An open and personal working environment with mutual respect and appreciation
- A modern office in the city centre of Graz with great facilities, in-house and locally
- Opportunities for further development and education, as well as flexible working hours

We welcome both male and female applicants that wish to become part of the success story in our highly motivated team. The stated position is offered as full-time.

The salary on the basis of a full-time role is € 49,000 gross per annum. Qualification and experience will dictate the final salary offer.
