

Your all-in-one solution for tracking time attendance.

Benefit from partnering with TimeTac

TimeTac offer established solutions for time tracking and leave management. The software is web-based and can be accessed anytime, anywhere, via PC/Mac, time clock or via a smartphone application.

Our TimeTac portfolio:

- Employee Time Tracking**
Simple recording of working times, with approval workflow
- Project Time Tracking**
Planning and tracking of projects and tasks
- Leave Management**
Absence management with approval workflows
- Shift Planning**
Shift planning and employee allocation management

Regardless whether via PC, Mac, tablet, smartphone or time clock, TimeTac is readily available via the internet and doesn't need to be installed!

Optimal support

You can trust TimeTac. We will offer support with marketing and sales materials, as well as with campaigns to broaden our market reach. Additionally, we will refer to you as our partner. Your in-house team can also benefit from a 50% discount on the entire TimeTac product range.

Your benefits

- Expand your product portfolio
- Joint marketing and sales campaigns
- Generous commission agreements

TimeTac, the company

TimeTac GmbH, based in Graz, Austria, develops and distributes web-based and mobile time tracking systems. Already a market leader in D-A-CH, our next focus is on international expansion.

Clear processes

You receive an enquiry for relevant products of TimeTac, whether time tracking or absence management based. You refer the potential customer to us, and upon successful completion of the deal, you begin to profit from our commission agreement. Further partnerships involving detailed sales and support opportunities are also available.
