(Senior) Data Warehouse Engineer / ETL Developer (m/f)

Graz | Austria   Full time | Part time

TimeTac is a continually growing and innovative software company with a focus on developing and providing web-based and mobile time tracking solutions. The products of TimeTac are among some of the leading cloud applications in the categories of time tracking and absence planning solutions in the German speaking markets.

Your Future Role
• Realize integration projects from their inception to the go-live
• Develop software solutions in close collaboration with our customers' specialists
• Conception and development of reusable ETL integrations as part of our „TimeTac Connect" software

Your Ideal Profile
• Proficient with high-performance SQL in multiple RDBMS
• Experience with multiple programming languages as well as REST APIs
• High accuracy and an eye for details
• Team player with excellent command of the English language, German is a plus

Our Stack
• PHP (Symfony), MySQL, Redis - backend REST API
• Codeception - software test automation
• Debian, CoreOS - deployed operating systems
• Jenkins, BitBucket, Docker - continuous integration and deployment
• PHP, Python, Bash, Go - scripting and automation
• Elasticsearch, Logstash, and Kibana (ELK stack), Prometheus - monitoring

We use git, JIRA, Slack, Google Docs and Google Meet to get our work done.

Our Offer
• Exciting tasks as part of a highly skilled and motivated team
• An open and personal working environment with mutual respect and appreciation
• A modern office in the city centre of Graz with great facilities, in-house and locally
• Opportunities for further development and education, as well as flexible working hours

We welcome both male and female applicants that wish to become part of the success story in our highly motivated team. The stated position is available for full-time as well as part-time employment. The minimum salary on the basis of a full-time role is € 43,000 gross per annum. Considerable over-payment is possible for ideal candidates with relevant experience and qualifications.

Interested? Please send your cover letter and CV...

Ideally, include links to your profiles on pages like GitHub or Stack Overflow.
